Spain		
Bilbao	2x per week	5 days
Rail connections to/from Bilbao	Departures	Transit times (terminal-terminal)
Spain		
Barcelona	3x per week	2 days
Madrid	2x per week	2 days
Valencia	3x per week	2 days
Vitoria	2x per week	2 days
Zaragoza	2x per week	2 days

Multimodal Network

Samskip offers pan-European, environmentally responsible combined transport services via shortsea, road, rail and inland waterway routes. We are committed to cost-effectiveness, operational excellence and best practice in sustainable transport.

High frequency services connect destinations across Europe, transported using a wide range of owned vessels, trains, containers, trucks and trailers. In all cases shippers can make real choices based on frequency of service, transit times, freight rates and sustainability.

Sustainable Transport

Samskip is committed to delivering sustainable transport solutions. By efficiently combining the different transport modes, Samskip and its customers successfully take mileage off Europe’s busy road network.

Specialised equipment

Samskip offers a wide range of modern equipment to suit the specific needs of your cargo. The fleet includes 20ft, 40ft and 45ft high cube pallet-wide containers.

In addition, swap body containers, Joloda and coil trailers are available for transport by rail. Our temperature-controlled 45ft containers are able to safely transport all chilled, cooled or frozen cargo. Other equipment is used to serve the steel and construction market as needed, such as flatracks (side and top loading) and coasters.

For the specifications please check out our Equipment brochure.

- > Samskip offers door-to-door and terminal-terminal connections with France, Portugal and Spain, serving a total of 6 rail and 5 shortsea terminals.

Door-Door Services

Our door-to-door services integrate collection, shipment and delivery into a seamless transport solution. Our dedicated staff ensure that the cargo is delivered while the customer has a single contact for the entire transport chain.

Terminal-Terminal Services

Samskip's terminal-terminal rail and shortsea services allow customers to access Samskip's shipping network using their own equipment. Tank operators, bulk operators and deep-sea lines benefit from the fixed service schedules.

Bilbao Rail Service

From Bilbao rail services are operated to Madrid, Valencia, Vitoria, Zaragoza and Barcelona on a regular basis.

Barcelona Rail Service

Samskip offers a fast intermodal service linking from Perpignan and Barcelona to Rotterdam with onward European connections. This service has a proven track record and a reliable and non-stop connection enables dedicated capacity and swift transit times to our customers.

Temperature Controlled Services

For customers requiring temperature controlled transport, Samskip has 40ft high cube and 45ft high cube pallet-wide reefers available. The Samskip Coolboxx 45ft reefer offers an optimal combination of cost and transport efficiency as it holds 33 Euro pallets and can be used across our network.

Steel and Construction Logistics

Operating in the industry since 1965 our dedicated and knowledgeable Steel & Construction Logistics department offers transport services, tailored to suit the needs of the steel & construction industry. From steel oven additives in big bags and oil drilling tubes to aluminium custom sized profile. Bricks, timber, but also tiles and natural stone are at the other end of our spectrum.

Local Representation

To ensure that all customers receive the tailor-made service they need, Samskip has local offices and agents in all regions it operates. Dedicated sales and customer service teams ensure high service standards.

Unique Advantages

- » Strong customer focus and customer service
- » Connections to an extensive multimodal service network
- » Direct and daily intermodal connections linking Barcelona with the Samskip network
- » Frequent, reliable and cost-efficient services
- » Schedule integrity of port-to-port sailings
- » In-depth industry experience and expertise
- » Local points of contact
- » One-stop shop
- » Wide range of modern equipment
- » Sustainable transport – lower CO2 emissions
- » In-house monitoring of your goods from collection to delivery
- » Online track & trace and proof of delivery
- » Compliant with IMO regulations (Dangerous Goods)
- » ISO and AEO certified
